Why are we here?

- required ME class { why : - solve ^{the} previously unsolvable
 - everything moves (even when unwanted)
 -
- make Math "real"

Every effect comes from a cause
($F = ma$)

do we have free will?

Yes

- consciousness \neq physical
- need choice for meaning (otherwise nihilism)
- maybe we see cause/effect b/c we expect it

No

- determinism
